CAREER OBJECTIVE

Computer Science graduate with a strong foundation in MERN stack development, including React.js, Node.js, Express.js, and MongoDB. Passionate about building scalable web applications and eager to start my career as a Software Engineer while continuously learning and improving my technical skills.

EDUCATION

Bachelor of Technology in Computer Science

St. Mary's Integrated Campus

CGPA: 7.41

2022 – 2026

TECHNICAL SKILLS

Languages	JavaScript, Python
Frontend	HTML5, CSS3, React.js, Bootstrap
Backend	Node.js, Express.js
Databases	MongoDB, MySQL
Concepts	REST APIs, JWT Authentication, CRUD Operations, Responsive Web Design
Tools	Git, GitHub, Postman, VS Code, Vercel

PROJECTS

Cortex – AI Powered MERN Chat Application

[GitHub](#) [Live Demo](#)

| React.js, Node.js, Express.js, MongoDB, JWT Authentication, REST APIs |

Built a full-stack AI-powered chat application that enables users to interact with an intelligent assistant through a modern and responsive interface. Designed with secure user authentication, efficient data management, and a scalable REST API architecture.

- Developed a full-stack chat application using React.js, Node.js, Express.js, and MongoDB.
- Implemented secure user authentication and authorization using JWT and bcrypt.
- Designed RESTful APIs for user authentication, chat management, and database operations using Express.js and Mongoose.
- Built a responsive and user-friendly interface with reusable React components for a seamless chat experience.

ShopSphere – E-commerce Frontend Application

[GitHub](#) [Live Demo](#)

| React.js, JavaScript, Bootstrap, REST APIs |

Developed a responsive e-commerce frontend application that allows users to browse products, manage their shopping cart, and interact with real-time product data through API integration. Focused on creating a clean user interface and smooth shopping experience.

- Built reusable React components for product listing, product details, and shopping cart functionality.
- Integrated REST APIs to fetch and display dynamic product information.
- Implemented state management for cart operations and responsive layouts across different screen sizes.
- Designed a modern and intuitive user interface using Bootstrap and custom CSS.

Personal Portfolio

[GitHub](#) [Live Demo](#)

| React.js, JavaScript, CSS3, Framer Motion |

Designed and developed a modern personal portfolio website to showcase technical skills, projects, and professional profile through an interactive and responsive user experience.

- Developed a responsive portfolio using React.js with reusable components and a modular architecture.
- Implemented smooth animations and interactive UI elements using Framer Motion to enhance user experience.
- Showcased projects, technical skills, and professional information with a clean, intuitive, recruiter-friendly interface.
- Optimized the application for responsiveness and performance across desktop, tablet, and mobile devices.
